EDUCATION

Bachelor of Computer Science and Art, Carnegie Mellon University Expected 06/27, curr. 3.86 GPA

Relevant Coursework: 15-210 [Parallel/Sequential Algorithms], 15-213 [Computer Systems], 15-251 [Computation Theory], 15-150 [Functional Programming], 17-437 [Web Application Development], 21-127 [Discrete Math]

SKILLS

Technical	Python, Matplotlib data visualization, R (Tidyverse/ggplot2), Google Earth Engine, GDAL Geospatial Data Analysis, QGIS, Linear Regression
Field + Safety	NPS Chainsaw Sawyer, Wilderness First Responder, Operational Leadership

PROJECTS

CryoTartans Currently developing Python algorithms, leveraging xarray and GDAL, to parallelize existing Sentinel-1 SAR data processing pipelines. The satellite imagery is then referenced with other geospatial datasets to process and visualize glacier melt extents and snowlines. ([CryoTartans research group website](#))

Digital Altimeter Built and programmed the circuit, enclosure, and software for a barometric [digital altimeter](#) with adjustable air pressure calibration and live elevation display using I2C protocols.

Sports Data Analytics Designed and wrote scripts in R for scraping (via APIs and direct HTML) and transforming sports data to investigate + [visualize](#) curiosities about the NFL and NBA. Performed quality control on internet-sourced data to ensure correctness. Improvised new machine learning shooting proficiency metrics by regressing charting data against box scores.

WORK EXPERIENCE

Wilderness Construction Crew Member Grand Teton National Park	May 2024 - Aug 2024, May 2025 - Aug 2025 <i>Moose, WY</i>
---	--

- Collaborated on remote wilderness construction projects, such as demolishing and reconstructing several bridges, constructing dry-stone staircases, and restoring historic barns and cabins
- Applied teamwork and problem-solving in physically demanding, high stakes situations, such as detonating charges in boulders, felling trees, and rigging mechanical advantage highline systems for moving logs
- Used and maintained a variety of tools, including drills, chainsaws, rock blasting kits, and wood/stone chisels
- Co-wrote job hazard analysis reports + exercises

Park Conservationist Grand Teton National Park Foundation	June 2022 - Aug 2022, June 2023 - Aug 2023 <i>Jackson, WY</i>
---	--

- Engaged in back- and front-country construction projects, such as installing a three-tier log retaining wall, digging 0.5 miles of new trail, and building several hundred new check steps
- Executed routine trail maintenance procedures, such as brushing and digging/maintaining drainage structures

EXTRACURRICULARS/RECOGNITION

- News- and sports-writer for the [The Tartan](#)
- Dean's list each semester at Carnegie Mellon
- Year-round climber, [summertime alpinist](#) based out of northwest Wyoming
- Painter, pianist, and photographer (some examples [here](#) and [here](#))
